

Serial No. 09/756,370

**REMARKS**

The specification has been amended in page 1 to provide a more descriptive title and to provide Serial numbers of the noted related applications.

In addition to the generic claims, namely, claims 1, 9, 16, 24 and 31-34, applicants elect to prosecute claim group II, namely, claims 10-15 and 25-30, as outlined by the Examiner. Accordingly, 2-8 and 17-23 have been withdrawn from this application. Therefore, applicants' restriction requirement has been met.

Applicants reserve the right to file a divisional application to cover their invention defined by claims 2-8 and 17-23, while this application is pending before the USPTO.

Thus, claims 1, 9-16 and 24-34 remain in this application.

Therefore, this application is believed in condition to be examined.

If there are still outstanding issues to be resolved, the Examiner is respectfully invited to call applicants' attorney, Thomas Stafford, at 727-772-4173 so that those issues may be discussed and satisfactorily resolved.

Respectfully,
